Danei Fyver

Technical Estimator · Founder, Legacy Solutions Architecture

danei@legacy-sa.co.za · linkedin.com/in/danei-fyver · cv.legacy-sa.co.za · Cape Town, South Africa

PROFILE

Technical Estimator and founder of Legacy Solutions Architecture, Cape Town. Prices and measures large commercial electrical projects, and builds web software for businesses, including his own take-off system, A.T.L.A.S.

EXPERIENCE

Technical Estimator, Electrical construction, maintenance and labour company (name withheld) Jul 2025 – present

- Bills of Quantities and cost estimates for large commercial electrical projects.
- SMM7 and NRM checking, variation orders and claims, site valuation and audits.

Founder and Lead Engineer, Legacy Solutions Architecture 2024 – present

- Design and build web software for businesses, written by me: online shops, digital-card and tipping platforms, and construction tools such as ATLAS.
- Also directed commercial electrical work and solar PV installations, from site planning to compliance handover.

Site Foreman and Electrician, Elegex Western Cape Nov 2020 – Jul 2022

- Ran daily site work, crews and material transport across several commercial and residential developments.
- Installed and maintained electrical systems, including solar PV, to statutory compliance standards before handover.

Digital content creator and broadcaster, TheLegacy___ (self-employed) Jan 2020 – Apr 2025

Live and on-demand video on Twitch and YouTube, using watch-time data to refine formats, and social campaigns to bring viewers in.

Earlier roles, Telecoms, ISP and teaching 2013 – 2020

Accounts executive and fibre sales (Vox Telecom), business development (RSAWEB), language consultant (TutorABC) and swimming instructor.

SELECTED SOFTWARE WORK

- **Socket Studio** (beta, socket-studio.legacy-sa.co.za): Contractors get the exact part numbers. Manufacturers get a branded tool that shows off their range. The Legrand range is the first one live.
- **CRONOS** (beta, cronos.legacy-sa.co.za): One monthly view per property, plus an Excel reconciliation report for owners, trustees and auditors.
- **JustATip** (beta, justatip.legacy-sa.co.za): Tips go straight into the venue's own PayFast account. Card holders change their details once and everyone sees the latest version.
- **SyncDesk** (in-house, support.legacyinc.co.za): Nothing is lost, and each client has one history. It runs my own business's support.
- **A.T.L.A.S.** (beta, atlas.legacy-sa.co.za): my own take-off system. It finds and counts every occurrence across the whole set of drawings.
- Also: Oupa Jêm (live), Family Roots (live), Digital CV (beta).

SKILLS

Software: Next.js, React, TypeScript, Tailwind CSS, Supabase, Firebase, Vercel, PayFast, Resend, Playwright. Also: Go, PostgreSQL, Nuxt, HTML and CSS, REST APIs.
